ULTRA PREMIUM QUALITY COTTON YARN TECHNOLOGY

EXCEPTIONAL SOFTNESS

SUPERIOR ABSORBENCY

QUICK DRY

LONG-LASTING DURABILITY

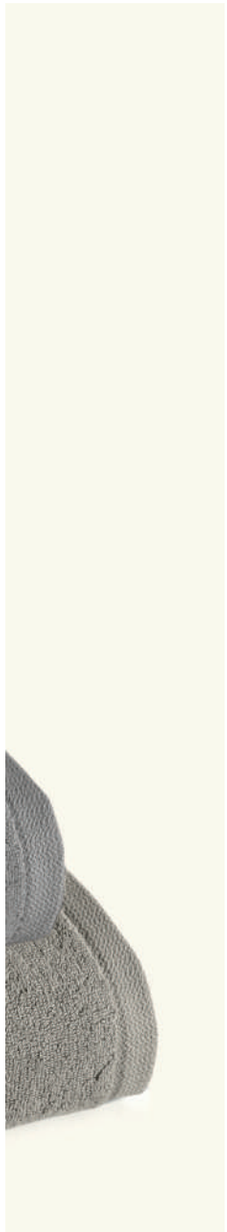

SOFTLINE Ultra Premium Quality Cotton Yarn Technology is an advanced production solution developed by combining the superior natural properties of 100% premium long-staple cotton with innovative weaving and advanced yarn technologies, alongside R&D activities throughout the manufacturing processes.

Thanks to this integrated approach, **SOFTLINE** Ultra Premium Quality Cotton Yarn Technology delivers towels with extra volume and loft through its innovative weaving structure and fine, dense fibers, while simultaneously providing exceptional absorbency, quick-drying properties, high strength, abrasion resistance and superior moisture control. Even after repeated washing, shape and color stability, smooth surface texture, enhanced weaving performance and long-lasting durability are maintained.

GLOWFEEL Bamboo Pure Natural Towel Technology is an advanced production solution that combines the superior natural properties of 100% bamboo fibers with innovative weaving and advanced yarn technologies, developed through comprehensive R&D across all stages of manufacturing.

Thanks to their round, smooth and fine structure, bamboo fibers naturally provide a silky-soft touch and elegant sheen. Their high absorbency keeps towels plump and lively, enhancing the luxurious silky feel. The natural antibacterial properties ensure hygiene and freshness. Bamboo is one of the fastest-growing plants in the world. It grows without pesticides or chemical fertilizers and regenerates quickly without harming the environment, making it a sustainable and renewable resource.
